Zongfab Modular Building Co., Ltd, established in 2015, is a comprehensive enterprise integrating the production, sales, and project construction of steel structure prefabricated houses.

The company produces and sells more than 20,000 units of various prefabricated houses annually, with a total construction area of approximately 360,000 square meters.

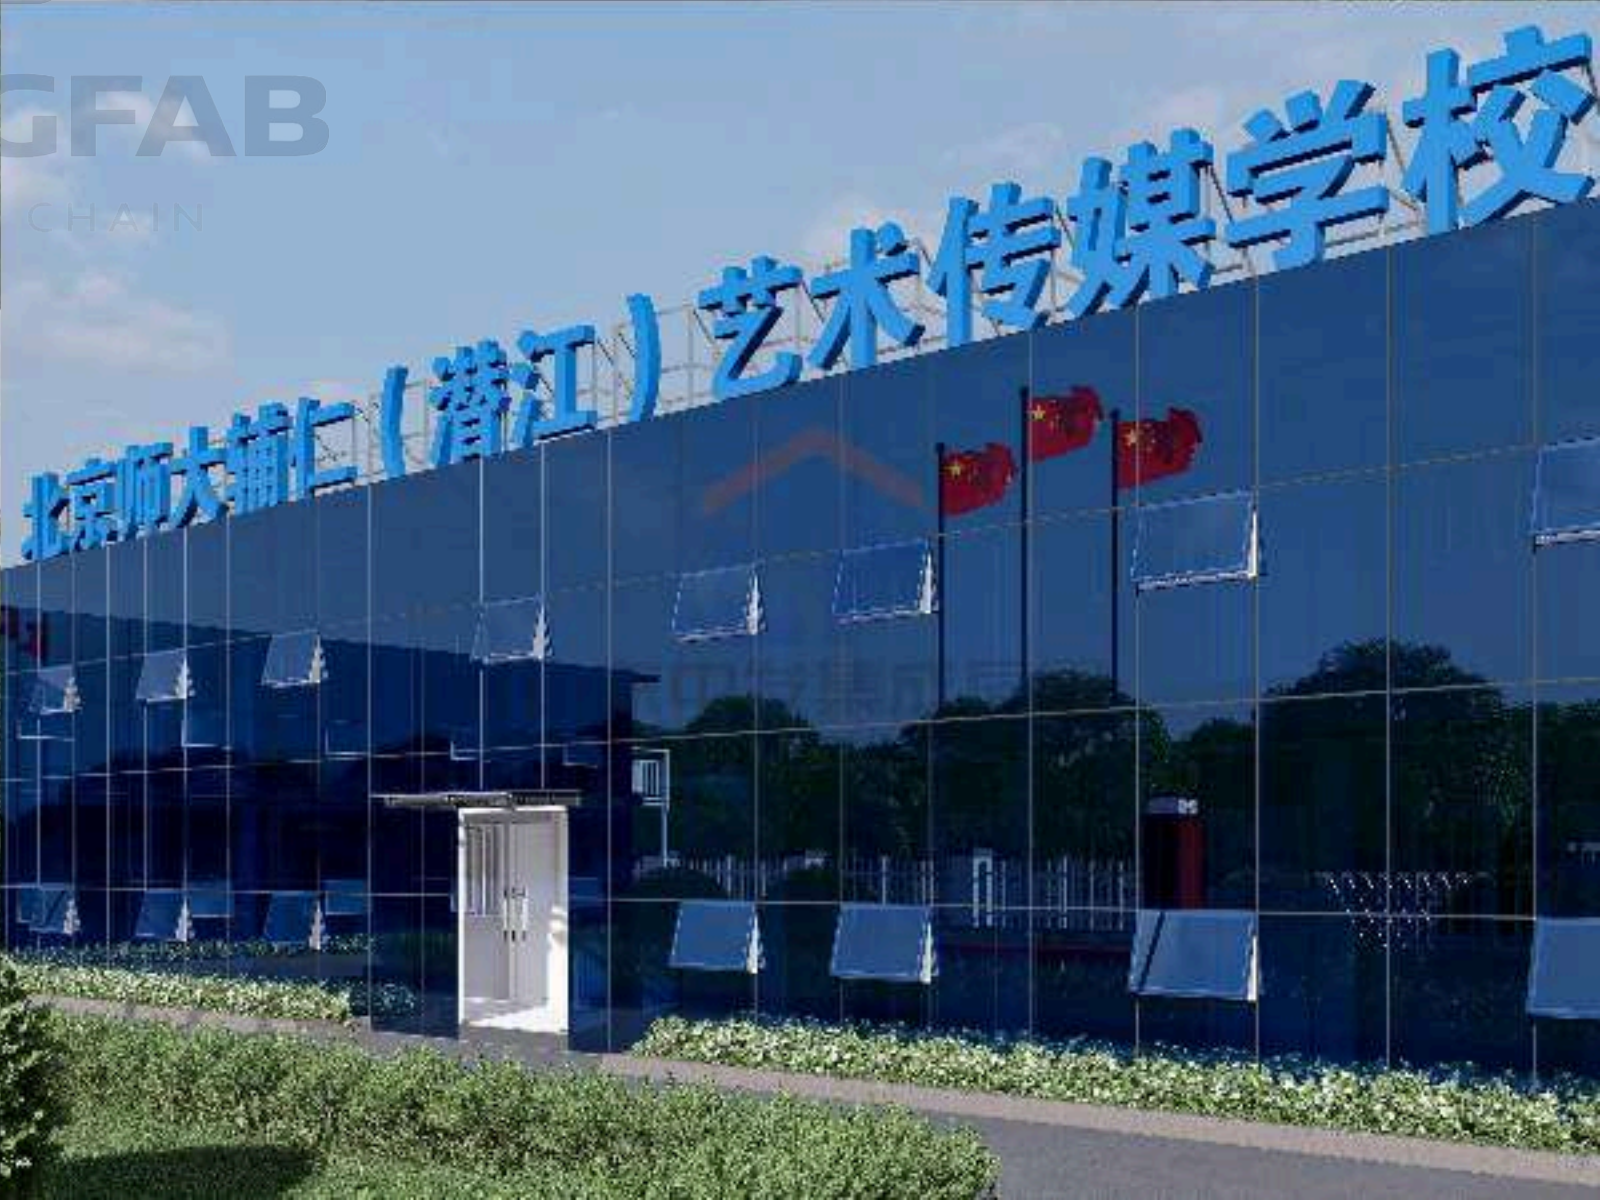

Each year, it directly participates in over 100 medium and large-scale projects, and maintains long-term partnerships with major state-owned enterprises such as China Railway and China National Petroleum Corporation (CNPC). The company is dedicated to supporting both domestic and international infrastructure development.
